DEPARTMENT OF LEGAL STUDIES «A. SRAFFA»

Bocconi Conference on Contract Theory

In the last dozen years, several leading scholars have tried to put contract on a new theoretical footing. Bocconi conference on contract theory invites leading proponents of contemporary contract theories to present their theories and seeks to clarify the common grounds and genuine differences among them. Participants subscribe to extremely diverse political theories, moral philosophies and methodologies. Their approaches range from pure procedural justice to pure substantive justice and everything in between.
